

XAVINA NEGRON

321-945-7037 | [E-Mail](#) | [LinkedIn](#) | Orlando, FL

SUMMARY STATEMENT

Emerging front-end software developer, eager to kickstart my journey in the industry and make a lasting mark with fresh perspectives and a hunger for growth. Pursuing a bachelor's degree in computing technology and software development, complemented by a comprehensive certification in Full Stack Web and Mobile Development from Nucamp. Demonstrated proficiency to collaborate in team environments and deliver polished solutions under tight deadlines. Leveraging hands-on experience gained from freelance projects, alongside coursework and bootcamp training to contribute meaningfully to progressive projects in the field. HTML5 • CSS3 • Bootstrap5 • JavaScript • React • UX/UI • Visual Studio Code • Git • GitHub • Version Control • API • Detail Oriented • Problem Solver • Teamwork • Bilingual in English and Spanish • Front-end Development • Debugging

NOTABLE PROJECTS

Insurance Consultancy Business Website (Freelance Work)

April 2024- May 2024

[View Code](#) | [Live Demo](#)

Developed a user-friendly website for an insurance consultancy firm specializing in life, health, annuities, supplemental, Medicare, and indemnity insurance. Integrated features to offer detailed information on services and career opportunities.

- Employed HTML5, CSS3, Bootstrap5, and vanilla JavaScript to build the website.
- Integrated form validation to ensure accurate data submission, achieving reliable communication between clients and the consultancy firm.
- Crafted a clean, professional interface for easy navigation, enhancing user experience and facilitating seamless interaction with the website with a responsive design.

The Met Mixer Application

Jan 2024- Feb 2024

[View Code](#) | [Live Demo](#)

App that generates random artwork from the Metropolitan Museum of Art's API to update the webpage's content dynamically complete with accompanying artwork descriptions.

- Collaborated closely with a team member to troubleshoot issues, optimize performance, and iterate on features to meet project requirements and user needs.
- Utilized HTML5, CSS3, Bootstrap5, and vanilla JavaScript to construct the app's frontend, ensuring a responsive and visually appealing user interface.
- Leveraged the Fetch API to fetch artwork data from The Met Museum's database in real-time, enabling seamless updates to the webpage's content

Chore Quest Application

Feb 2024- Apr 2024

[View Code](#) | [Live Demo](#)

Developed a chore tracker app employed with React JS targeting families and children, aimed at gamifying household responsibilities. Facilitated effortless chore completion, point tracking, and reward unlocking within an engaging, interactive environment. Provided users with the ability to create custom chores and rewards for a personalized experience, with plans for future user profiles and authentication.

- Utilized React JS, HTML, CSS, Bootstrap, and JavaScript to construct Chore Quest's frontend, ensuring a responsive and visually appealing user interface.

- Implemented React Context API for efficient state management and React Router for seamless navigation, enhancing user experience.
- Enabled users to create custom chores and rewards, adding a personalized touch to their experience, while integrating dynamic features like ES6+ syntax, React Hooks, and error handling for smooth interactions.

EDUCATION

Full Stack Web and Mobile Development Certificate, Nucamp Coding Bootcamp

Dec 2023- Apr 2024

Intensive developer bootcamp focusing on technologies such as JavaScript, React, React Native, Google Cloud & Firebase, Visual Studio Code and back-end with MongoDB and Node.js Gained hands-on experience in building dynamic web and mobile applications across multiple platforms.

BAS in Computing Technology and Software Development, Valencia College

Aug 2022- Present

EMPLOYMENT

Merchandise Associate, Marshalls Inc

Mar 2021- Jun 2023

- Enhanced customer satisfaction by providing high-quality, personalized service, leading to increased repeat customer visits.
- Played a pivotal role in digitizing customer feedback processes, significantly improving the store's responsiveness to customer needs and boosting satisfaction ratings.
- Maintained up-to-date knowledge of store inventory and proactive sales techniques, ensuring effective customer communication, service and exceeding sales targets.
