PROJECTS

THE MET MIXER <https://github.com/xavinanegron/TheMetMixer.git>

- Collaborated on building an app that generates random artwork from The Met Museum of Art, along with artwork description. Built with Bootstrap 5 and vanilla JavaScript to connect to a public API and update the webpage's content dynamically.

CHOREQUEST <https://github.com/xavinanegron/ChoreQuest.git>

- App targeting kids and their families, aiming to gamify household responsibilities. Users can effortlessly complete chores, track their points, and unlock rewards, all while enjoying an engaging and interactive experience. Users also have the flexibility to create custom chores and rewards, adding a personalized touch to their journey.

WORK EXPERIENCE

MERCHANDISE ASSOCIATE

Marshalls

2021- Current

- Enhanced customer satisfaction by providing high-quality, personalized service, leading to increased repeat customer visits.
- Maintained up-to-date knowledge of store inventory and proactive sales techniques, ensuring effective customer communication, service and exceeding sales targets.
- Played a pivotal role in digitizing customer feedback processes, significantly improving the store's responsiveness to customer needs and boosting satisfaction ratings.
